

Pahlén skimmers, inlets and outlets

MADE OF ACID PROOF STAINLESS STEEL

High water level skimmers

Classic Wide 385 / Skimmer Infinity gives high water level with efficient extraction.

Classic Wide 6° 385 is especially developed for fibreglass-/PP pools with 6 degree angle walls.

Prepared for installation of water level control.

NEW

Skimmer Infinity

Item no. Type

112965	CA-SI	Skimmer Infinity
--------	-------	------------------

Flow capacity max 12 m³/h.

Classic Wide

Item no. Type

112970	CA-SW	Skimmer Classic Wide 385
--------	-------	--------------------------

112960	CA-SW6	Skimmer Classic Wide 6° 385
--------	--------	-----------------------------

Flow capacity max 12 m³/h.

Skimmer

Standard

Item no. Type

112989	A-SNR
--------	-------

Extended

Item no. Type

112999	A-LNR
--------	-------

Flow capacity max 12 m³/h.

Skimmer Marine

Standard

Item no. Type

124988	CA-SNR
--------	--------

Extended

Item no. Type

124998	CA-LNR
--------	--------

Flow capacity max 12 m³/h.

Skimmer grille

Skimmer grilles prevent large objects from entering the skimmer and for additional safety precautions.

Item no. Type

124705 A Skimmer front mesh

124706 B Skimmer front grille

Accessories

Item no. Type

112900 Fixture kit, for concrete pool with liner.

822620 Skimmer Wide, kit for cement based sealing membrane

822625 Skimmer Infinity, kit for cement based sealing membrane

15530104 Screw kit, skimmer, fibre glass/PP pool

15530133 Screw kit, skimmer Wide, fibre glass/PP pool

822100 Mounting plate for skimmer

13083002 Distance for skimmer in steel pool

112504 Bracket for level control skimmer Wide

Water level control

Tops up the water level automatically when it gets too low in the pool. Programmable refilling time and equipped with warning light.

Item no.

11250 Water level control

11251 Water level control with horizontal switch

11253

112501 Solenoid valve ½".

112503 Cover for level control

112504 Bracket complete for Level control WIDE

112505 Non leak flange, water level control
